About our Procurement Health Check

Charles Kendall Australia's Procurement Health Check is a quick, simple, cost-effective way to review a procurement function with a view to maximising operational efficiency and effectiveness.

Focus Areas

The Procurement Health Check focuses on fundamental elements of a procurement function as follows.

Final reporting reflects all of these elements in terms of fitness for purpose, opportunities for improvement and the overall maturity level of the procurement function.

How much does it cost?

\$5,500.00 (excluding GST)

An invoice will be submitted for the total amount upon completion of the engagement.
