

Charles Kendall Freight: An Overview

Introduction to Charles Kendall Freight

Since we began in 1945, Charles Kendall has grown into a complete, end-to-end supply chain management group.

With six strategic locations in the UK, and a network of offices and partners around the world, Charles Kendall Freight is a truly global business. Whatever you need to transport, wherever in the world, we'll put together the ideal solution for your business. We also offer specialised consultancy in all areas of freight and logistics.

We have decades of experience, and highly skilled people, who specialise in complex and sensitive areas like the oil and gas industry, dangerous goods and aerospace, as well as infrastructure projects, exhibitions, cross trade and air charters.

We also handle a huge range of general cargo from across all industry sectors, including telecoms and online retail distribution for global brands.

Tailored Solutions

As part of the global Charles Kendall Group, we can deliver bespoke, expert, and reliable end-to-end supply chain solutions. From procurement to packing, logistics, transportation and delivery, anywhere in the world.

Calling on more than 60 years of experience, we work to remove costs at every stage, through minimising supplier lead times, accurate forecasting, order size and frequency (demand management), central inventory, secure warehousing, and distribution.

We're proud to be part of an established, family-owned group that continues to live by its founding principles of integrity, reliability and personal service.

Accreditations

Authorised Economic Operator (AEO) status, Investors in People, IATA, FIATA, ISO 9001:2008, BIFA and WCA.
